+ 52 33 14 06 91 13

Here is some of my recent  
experience...

## ORACLE

2021 - 2024

### Software Developer

- Improved my microservices knowledge by working in the development of enhancements and features for different microservices.
- Helped to ensure the quality code by developing unit tests for the existing code.
- Improved my developing skills by working together in a team in the development of new features using Java and

JavaScript mainly and having code reviews together.

- Contributed in the testing area by working together with the QA team to perform regression testing.
- Being more involved in every part of the development cycle.

2021 - 2024
